

Standardized Assessment Delivery

Building a competent workforce is crucial to a company's success. NBS offers standardized assessments to assist companies and organizations in gauging an employee's skills and knowledge and to assist in training needs identification. With assessments at three skill levels measuring skills in over 100 occupational areas, standardized assessments are a viable solution for organizations.

Flagship Clients:

Kubota Manufacturing of America Corporation, Hyundai Motor Manufacturing, Trane Commercial Systems, Sumiden Wire Products

Pre-Employment Test Development

The hiring process can be challenging and selecting employees with skills and knowledge that align to the job is critical. NBS works with clients to develop assessments specific to the organization to be used as part of a pre-employment structure. These assessments assist in narrowing the pool to select the best potential employees to move forward with an interview.

Flagship Clients:

SC Johnson, The Boeing Company, Hershey, and Wayne Farms

Certification Development

Certifications are a valuable career credential for individuals and their companies, providing proof of knowledge and skills. NBS offers a collection of nationally validated and industry-defined professional certifications across several industries.

Flagship Clients:

American Boat and Yacht Council (ABYC), Manufacturing Skill Standards Council (MSSC), FANUC America, Recreation Vehicle Industry Association (RVIA), Plumbing-Heating-Cooling Contractors (PHCC), and the Advanced Manufacturing Technical Education Collaborative (AMTEC)

Training Development

Hiring the best personnel is only a portion of building a successful workforce. NBS works with employers to expertly design training programs and materials. By evaluating new and current employees, companies can target training program needs to help employees reach their full potential.

Flagship Clients:

Pipe Trades Training Center, Recreation Vehicle Industry Association (RVIA), and the Training Trust Fund of Southern California

Third-Party Assessment Delivery Services

NBS maintains a robust online delivery system that can be utilized by any organization. Client-developed certifications can be uploaded to the NBS system so clients can take advantage of a proven and stable assessment delivery and reporting system.

Flagship Clients:

SME (formerly the Society of Manufacturing Engineers), American Mold Builders Association (AMBA), and International Fluid Power Society (IFPS)
